

**Runway 23 ILS Flight Inspection – September 19, 2009**

Date of Release: September 18, 2009

Nav Canada will be completing an Instrument Landing System inspection on Runway 23 from 9:00 a.m. to 1:00 p.m. on September 19, 2009. A white and blue regional jet will make repeated approaches to the runway at low altitude without the landing gear down approximately every 5 to 10 minutes.

These unusual aircraft manoeuvres are normal operations required for Instrument Landing System inspections. Daily weather and air traffic conditions may require adjustments to the actual times of the flight inspection.
