

**Runway 33R ILS Flight Inspection – June 02, 2009**

Date of Release: June 01, 2009

Nav Canada will be completing an Instrument Landing System inspection on Runway 33R from 12:00 p.m. to 4:00 p.m. on June 02, 2009. A white and blue regional jet will make repeated approaches to the runway at low altitude without the landing gear down approximately every 5 to 10 minutes.

These unusual aircraft manoeuvres are normal operations required for Instrument Landing System inspections. Daily weather and air traffic conditions may require adjustments to the actual times of the flight inspection.
