

Confined Space Recertification

Confined Space Recertification

Pre-requisites: Confined Space Entry Course

Description:

Confined Space Recertification Training offered by Greater Toronto Airports Authority Fire and Emergency Services Training Institute provides participants with a refresher of the knowledge and skills previously learned on the Confined Space Entry Course. Students will revisit the legal requirements, Review air monitoring, PPE, permits and complete a live entry.

Goal:

This Program ensures each student is reminded of the required information and tools needed to enter confined spaces safely and confidently. The Refresher program is required every three years. [Course Policies](#)

Cost: Please refer to [Fee Schedule](#)

Duration: 8 hours

Class size: 16 participants Max
