

# Wheel Unit Extinguisher Training

## Wheel Unit Extinguisher Training

### **Description:**

The Wheeled Unit Extinguisher course is designed for those persons who work in industry or at airports where there are fuel loads that require 110lb or 350lb wheeled extinguisher units. Each student will be instructed on the basic principals of firefighting as instructed in our portable fire extinguisher course. In addition each student will be given a live fire scenario where they will be expected to extinguish utilizing the supplied wheeled unit.

### **Goal:**

It is hoped that this course will instill enough confidence in students so that when faced with a fire they are able to react with adequate confidence and safety.
